

## Visit to the Raja Rammohun Roy Memorial Museum

Department of Chemistry, Rammohan College organized a visit for the Chemistry honours students of second semester, fourth semester and sixth semester. The students were taken to the Raja Rammohun Roy Memorial Museum at New Science Building Campus, Rammohan College by Dr. Piu Dhal and Dr. Madhuparna Mukherjee, the teachers of the Chemistry department on 21st June, 2024.

On that day students gathered at the college premises early in the morning and then they were taken to the Raja Rammohun Roy Memorial Museum. After collecting the tickets from the counter they were allowed to enter the three storeyed structure illustrative of the colonial style architecture of the 19th century which is said to have been the residence of the family of Raja Rammohun Roy.

The museum consists of photographs, sketches, paintings and excerpts from the writings of Rammohun and others reproduced, wherever possible, in facsimile. Also period furnitures and diorama representations designed to recreate the times. Together they not only gave students the glimpses of the various facets of one of the greatest personalities of the modern age, but at the same time took them back into the period in history when India was at crossroads, and Rammohun heralded the coming of the modern age.

This visit helped in inspiring young minds and helped them dream of many possibilities. It was thrilling as well as an enriching experience for them to have seen and experienced all of that in the museum. Hope This visit to the Raja Rammohun Roy Memorial Museum has left a lingering impression on their mind.
