

Report on “Environmental Pollution Prevention Day”

Date: 2nd December 2024

Venue: Department of Geography, Rammohan College

The Department of Geography at Rammohan College observed Environmental Pollution Prevention Day with great enthusiasm and purpose on the 2nd of December, 2024. The event aimed to raise awareness about pressing environmental issues and foster innovative solutions to combat pollution.

The program was graced by the presence of eminent speakers, including:

1. **Prof. Manas Paul**, Head of the Department of Geography
2. **Prof. Madhumita Chatterjee**, Senior Faculty Member, Department of Geography
3. **Dr. Sibnath Sarkar**, Department of Geography

The event commenced with an inaugural address by **Prof. Manas Paul**, who emphasized the significance of collective efforts in pollution prevention and sustainable living. Following this, **Prof. Madhumita Chatterjee** delivered an insightful presentation on the impacts of air and water pollution on urban ecosystems, inspiring students to take an active role in environmental conservation. The keynote speech by **Dr. Sibnath Sarkar** focused on innovative technologies and community-driven initiatives for pollution mitigation, which was highly appreciated by all attendees.

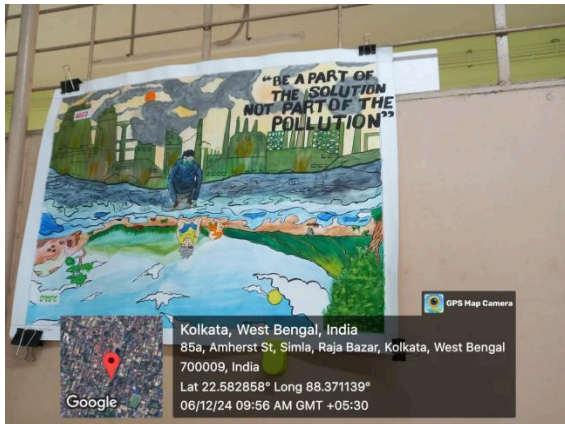

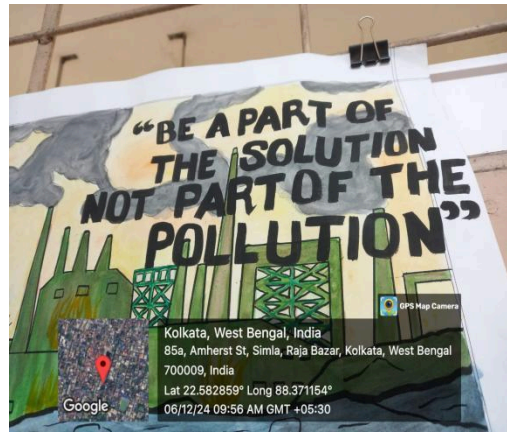

A major highlight of the event was the participation of **16 Semester-1 students** from the department, who showcased their creative and research-driven perspectives through poster presentations. Each student prepared a poster highlighting critical environmental issues such as plastic pollution, air quality degradation, and climate change. The posters not only displayed the students' understanding of environmental challenges but also proposed practical solutions to address them.

The event concluded with an interactive session, where the speakers engaged with students, addressing their queries and providing valuable feedback on their posters. Certificates of participation were distributed to all students to recognize their efforts and contributions.

As a fitting culmination to the event, a **tree-planting ceremony** was held in the college campus. Faculty members, students, and the distinguished speakers jointly planted a sapling, symbolizing the department's dedication to environmental preservation and sustainability.

The celebration of Environmental Pollution Prevention Day was a resounding success, fostering awareness, creativity, and a collective sense of responsibility among the participants. The Department of Geography is committed to organizing more such initiatives to inspire and empower future generations in the fight against environmental degradation.

Some precious moments of the day..
