World Environment Day 2026

Programs by Department of Geography in coordination with NSS and IQAC Rammohan College

Tree plantation program in new science building grounds

Time: 8.30 am to 9.30 am

Saplings were planted in the new science building campus by faculty Department of Geography Dr Sibnath Sarkar, Mr Manas Paul, Dr Rahul Mallick, NSS program officer Sibaprasad Midya, Dr Anindita Das Faculty Department of Botany and member of NSS subcommittee and Ritika Shaw semester 2 student from Department of Geography. A pledge to protect the environment was taken. The pledge was conducted by Dr Indrani Paul who teaches Environmental Science in our college.

Online Program through google meet

Time: 5 pm to 6 pm

Online lecture by Ms Rohini Mukherjee Director Naandi Foundation

The program was inaugurated by Dr Sayonti Mitra Teacher in Charge .Ms Mukherjee spoke on her ground experience as an environmentalist in the coffee plantations of Araku region, Andhra Pradesh. She explained how economic benefits can arise from regular planting of shade trees and coffee plantations. The area is a tribal area where intervention by Naandi Foundation is raising the quality of coffee and providing a sustainable livelihood to the local tribal families.

An interactive session followed. This session was conducted by Dr Sibaprasad Midya, Program Officer NSS and faculty Department of Chemistry. Questions rose on economic viability of coffee plantations, organic farming and its importance in coffee plantations were discussed.

Dr Sumitra Chandra Faculty Department of Geography offered the vote of thanks.

The program had 44 attendees. Students and alumni from Department of Geography, NSS volunteers participated in the meeting. The faculty from various departments of Rammohan College, retired teachers and external guests from other colleges were the audience.
